

**腾达机械**  
TENGDA MACHINERY

ISO9001:2000质量管理体系认证 注册号:0170041065-0105

本公司主要生产:水松纸加工、铝箔纸、卡纸、烟草包装、薄膜软包装、印刷包装、电缆屏蔽材料、防伪电子用膜、涂布复合等成套机械设备。

This company mainly produces complete equipments for tipping paper processing, aluminum paper, bobbing paper, tobacco packing, flexible packing, printing packing, cable shield material, anti-counterfeiting electronic film, coating and lamination etc.

PYAW-600-1000型卷筒纸无轴传动(电子轴)凹版印刷机

用途及特点:

PYAW-系列卷筒纸无轴传动(电子轴)凹版印刷机是本公司专门为香烟水松纸、软标、口花纸等薄纸印刷而设计,参照德国、日本进口设备进行特别设计和制造。

整机采用全数字化PLC、德国运动控制系统,人机界面操作,采用德国伺服控制系统(收放卷变频器)及浮辊张力控制,不减速不停机全自动高速接纸功能。采用国产电子轴专用套印系统(可选),气动压印装置,气压式导引刮刀,着墨为印版全喷淋+浸入式,有装版小车,无轴装版方式。薄膜纸烘干干燥系统通过热风循环,温度自动速度同步控制,风力强且能耗低,气动开闭烘道,整机运转平衡、套印稳定、结构紧凑、操作方便、外形美观,是印刷机中实用型的理想设备。

PYAW-600-1000 Shaftless Transmission (E-axis) Gravure Printing Machine

### Function&Feature:

PYAW series 600-1000 roll paper shaftless transmission (E-axis) grav ure printing machine is especially designed for the printing of cigarette tipping paper, soft trade mark, small label and etc., consulting a number of German and Japan equipments. The machine applies digital PLC, German motion control system, Human-machine interface , German servo control system (unwind and rewind variable frequency motor) and floating roller tension control, thus achieving the function of nonstop, automatic paper-receiving. It also applies Chinese E-axis overprint system, German graphic monitoring system (optional), pneumatic impression equipment, pneumatic guide scraper. The way of inking is a combination of full spray and immersion. Paper and films can bedried throughhot air circulation and the temperature can be controlled automatically and simulta neously, strong wind and low power, pneumatic open and closing the drying oven. This machine is a practical and ideal printing equipment.

# 海宁市腾达机械有限公司

Haining Tengda Machinery Co.,Ltd.

主要技术参数 (Main technical parameters) :

机器型号 (size)	600型	800型	1000型
色组 (colors)	3-6色	3-6色	3-6色
卷材宽度 (Material Spe)	640mm	840mm	1040mm
卷材直径 (Material dia.)	800mm	800mm	800mm
印刷宽度 (printing width)	620mm	820mm	1020mm
印刷基材 (substrate)	纸张30-100g/m <sup>2</sup>		
版筒直径 (Versionof tube Dia)	120-280mm		
最高印刷速度 (Max.speed)	250m/min (最高机械速度300m/min)		
套印精度(纵横向)(Overprint precision)	≤±0.1mm(匀速)		
对版系统 (system)	国产电子轴专用套印系统		
干燥方式 (Drying methods)	热空气加热方式(电加热、蒸汽加热、油加热可选)		
张力 (Tension)	进口伺服电机控制(收放卷变频器)及浮辊控制		
每组传动电机功率	4KW	5KW	5KW
加热功率 (五色) (Heating power)	300KW	350KW	380KW
机器重量 (五色) (Machine Weight)	36000KG	40000KG	45000KG
外型尺寸(五色)(Overall dimensions)	1880×3400×3800mm	1880×3600×3800mm	1880×3800×3800mm
